CALIBRATION SERVICE TERMS

- 1 Prices do not include VAT.
- 2 In on-site calibration services, accommodation and travel expenses are the responsibility of the customer.
- 3 On-site calibrations should be requested at least 2 weeks in advance.
In the case of verbal requests (by phone, etc.), the request and quotation approval must be submitted in writing via mail, fax, or email for calibration to be carried out. Calibration services cannot be provided without written request and approval documentation.
- 4 The person authorized by the requesting company, in the calibration request, should also include detailed information about the device for which calibration is requested (measurement capacity, resolution, operating temperature, etc.).
- 5 For companies other than our members, calibration services are provided after the calibration fee has been paid.
- 6 For on-site calibration services, the device to be calibrated should be cleaned in advance and ready for calibration.
- 7 Additionally, calibration will not commence if the user (operator) is not present at the device.
If any deviation from calibration suitability, malfunction in operational function, or deviation from standard values is identified in the device under inspection before commencing the calibration process, calibration will not be performed. The authorized person will be informed, and calibration will only proceed once the issue has been resolved.
- 8 In the case of on-site calibrations where the device is found to be faulty or where measurement results are incorrect, the calibration fee will still be charged.
- 9 For any reason (loss, damage, etc.), the calibration certificate/measurement report can be reissued upon payment of up to 5% of the calibration fee.
- 10 The shipping cost for devices sent for measurement is the responsibility of your company.
- 11 Our laboratories are not responsible for incorrect packaging or any damages that may occur during shipping.
- 12 Devices without a serial number or any code will not be processed within the scope of accreditation, and a certificate with the TÜRKAK logo will not be issued.
- 13 If requested, calibration can be monitored by the person appointed by the laboratory supervisor during the calibration process.
- 14 The service expenses for on-site calibrated devices (calibration, accommodation, meals, and travel expenses) will be invoiced to your company upon the completion of the service.
- 15 In the event of the acceptance of the calibration quotation, all the conditions mentioned above are considered to be accepted by the customer.
- 16 You can access our accreditation scope with number AB-0038-K on the TÜRKAK website.
If the customer requests and specifies the acceptance criteria, a conformity declaration can be provided for other devices using the decision rule of TS EN ISO/IEC 17025:2017, provided that there is a compliance/class description specified in the standards or upon specifying the acceptance criteria.
- 17 Customer information is not shared with third parties. However, in the event of a legal authority's request, customer information and the issued certificate can be shared, unless prohibited by law. Customers affected by this situation are informed in writing. Information obtained about the customer, other than the customer, such as complainants and regulatory authorities, is kept confidential between the customer and the laboratory. Personnel in our laboratories stay clear of commercial, financial, administrative, and other internal and external pressures and influences that could negatively affect the confidentiality and impartiality of the work conducted in our laboratories.
